ABOUT ME

iOS Developer with an engineering background. I build apps for real human problems, from accessibility tools to embedded systems. I'm completing my Automation Engineering degree at Federico II while developing iOS at the Apple Developer Academy. I bring engineering rigor to design and design empathy to engineering.

EXPERIENCE

Pier Program · Advanced Developer

Sep 2025 · Jun 2026

Apple Developer Academy @ UniNa · 2nd Year · Naples, Italy

- Selected for the Pier Program, reserved for top first-year graduates. Building iOS apps full-time for external clients: NGOs, university research departments, and public-private organizations, managing the full cycle from requirements gathering to delivery.
- Sharpening professional-level skills: stakeholder communication, scoping under real constraints, and accountability for what gets shipped.

Operator on CNC Machines

Jan 2016 · Jun 2018

Utensili Services Srl (PCTO) · San Vitaliano, Italy

- Operated precision CNC machinery. Developed discipline, attention to detail, and practical problem-solving in a technical context.

EDUCATION

Bachelor's Degree in Automation Engineering | L-8

In progress

Università degli Studi Federico II · Naples, Italy

Apple Developer Academy

Sep 2024 · Jun 2025

Università degli Studi Federico II · Naples, Italy

- 9-month full-time program at the largest Apple Developer Academy outside the US. Built production iOS apps end-to-end with Swift and SwiftUI, applied Human-Centered Design and Apple's Challenge-Based Learning methodology in multidisciplinary teams. The year ended with real output: team-built iOS apps shipped to the App Store.

PROJECTS

BugBusters

2025

Apple Developer Academy @ UniNa · iOS Game

SwiftUI · SpriteKit · AVFoundation · iOS 18+

- Sole developer of a published App Store arcade game, built end-to-end in 4 weeks as part of a 5-person team at the Apple Developer Academy. Owned the entire codebase: SpriteKit physics engine, object pooling for stable 60 FPS, dynamic difficulty scaling, and adaptive audio mixing via AVFoundation.

CowPow! Radio Stories

Sep 2025 · Jun 2026

Apple Developer Academy @ UniNa · Pier Program · Client: CHOC, Childhood Cancer Foundation

Unity (URP) · C# · SwiftUI · iOS

- Game developer in a 6-person team building a medical simulation app for children undergoing radiotherapy, in collaboration with a South African NGO. Phase-based state machine, real-time texture painting, ScriptableObject architecture, and voiced localisation over 8 months.

SKILLS

IOS DEVELOPMENT

Swift, SwiftUI, SpriteKit, AVFoundation, SwiftData

SYSTEMS & EMBEDDED

C++, C (Arduino), Python

GAME & INTERACTIVE

Unity, C#

WEB

React, Tailwind

DESIGN & WORKFLOW

Figma, Sketch, Miro

TOOLS & FRAMEWORK

Git, Xcode, Jira, n8n

LANGUAGES & PROFILES

Italian native speaker

English fluent
