

Davide Bellobuono

iOS Developer · Full-Stack Web Development | Swift, SwiftUI, React, Python/n8n

Tel: +39 331 5889356
Email: davide23bellobuono@gmail.com
Portfolio: aideb2b3.github.io/Portfolio
Location: Somma Vesuviana (NA), Italy

ABOUT ME

iOS Developer with a background in Automation Engineering, now expanding into full-stack web development. I ship native iOS apps (Swift, SwiftUI, UIKit) to the App Store, build web interfaces in React and Tailwind, and design backend automations and data pipelines with Python, n8n, PostgreSQL and Docker (REST API integration, CI/CD). Strong object-oriented foundations, comfortable in Agile/Scrum teams, used to owning delivery on real client projects.

EXPERIENCE

Pier Program · Advanced Developer

Sep 2025 · Jun 2026

Apple Developer Academy @ UniNa · 2nd Year · Naples, Italy

- Selected for the Pier Program, reserved for the top students of the 2024/2025 standard class at the Apple Developer Academy: full-time iOS app development for external clients (NGOs, university research departments, public-private organizations), covering the entire cycle from requirements gathering to release on the App Store, in a team of about 6 people.
- On CowPow! Radio Stories, an 8-month project for CHOC (South Africa's Childhood Cancer Foundation), I served as game developer responsible for the core interactive systems (a phase-based state machine coordinating 7 controllers with checkpoint-based resume support, a real-time texture painting system for marker-guided tracking, and a ScriptableObject-based architecture for adding new phases without modifying scene logic); the app helps social workers prepare children for radiotherapy through play and storytelling and was released worldwide on the App Store.

EDUCATION

Bachelor's Degree in Automation Engineering | L-8

In progress

Università degli Studi di Napoli Federico II · Naples, Italy

- Relevant coursework: Artificial Intelligence with Python, Computer Networks, C/C++ programming, and Java fundamentals.

Apple Developer Academy

Sep 2024 · Jun 2025

Università degli Studi di Napoli Federico II · Naples, Italy

- 9-month full-time program at the largest Apple Developer Academy outside the US. Built production iOS apps end-to-end with Swift and SwiftUI, applied Human-Centered Design and Challenge-Based Learning in multidisciplinary teams, with apps shipped to the App Store.

PROJECTS

Automation & Data Pipelines · n8n

2026

n8n · JavaScript · Claude AI · PostgreSQL (Supabase) · Docker · REST API

- Solo-built and deployed 4 n8n automations that remove manual work end-to-end: an AI-classified email agent with human approval, a scheduled ETL pipeline into a PostgreSQL database via REST API, a website uptime monitor, and a daily weather alert — all running unattended on Docker.

CowPow! Radio Stories

Sep 2025 · Jun 2026

Apple Developer Academy @ UniNa · Pier Program · Client: CHOC (Childhood Cancer Foundation, South Africa)

Unity (URP) · C# · SwiftUI · iOS

- Co-built and shipped a Unity/SwiftUI medical-simulation app for CHOC (South Africa) that helps social workers prepare children for radiotherapy through guided play, released worldwide on the App Store.

LISionario · Italian Sign Language Dictionary

2025

SwiftUI · MVVM · Airtable (REST API) · Cloudinary · async/await

- Designed a fully remote, database-free iOS architecture (SwiftUI, Airtable REST API, Cloudinary) with a two-table moderation queue that lets the Deaf community submit new signs without ever touching the live dictionary.

Alzheimer Classification · Machine Learning

2023 · 2024

Python · scikit-learn · Pandas · NumPy

- Built an object-oriented scikit-learn pipeline benchmarking 9 classifiers with cross-validation to flag dementia progression from clinical data, reaching a 0.95 ROC-AUC on a 373-sample dataset.

SKILLS

ADDITIONAL LANGUAGES

C, C#, C++, Java (basics)

AUTOMATION & DATA

Docker, n8n, PostgreSQL, Python, REST API
Integration

DESIGN TOOLS

Figma, Sketch

DEV TOOLS

Agile, CI/CD, Confluence, Git, Jira, Scrum,
Unity

IOS

AVFoundation, Combine, MVVM, SpriteKit,
Swift, SwiftData, SwiftUI, UIKit, Xcode

WEB / FULL-STACK

CSS3, HTML5, JavaScript, React, REST API,
Tailwind CSS, TypeScript

LANGUAGES & PROFILES

Italian Native speaker
